- 14 Bible Books, Passages & People (commentaries, etc)
- 21 The Christian Walk
- 23 Dispensational Messages
- 27 Prophecy
- 29 Life, Death, Soul, Resurrection, etc
- 30 Miscellaneous
- 33 Shorter Messages (a listing of talks 10-20 mins in length)

A Bit of History

In October 1953, in the home of some friends, Charles Welch made a recorded Bible study message, now catalogued as W1, on the subject of “Right Division”. That was the first of what was to become, over the next 14 years, a collection of well over 500 messages expounding the Scriptures.

In 1954, at the suggestion of Len Canning, Arthur Rumsey began recording the teachings of Charles Welch onto reel-to-reel tape machines at the Chapel of the Opened Book (London, UK). This great work formed the **Berean Forward Movement, Tape Recording Service (TRS)**. Not long after, Stuart Allen was also recording messages, and the tape library began to grow. Far from wanting to draw attention to themselves via this “new” medium, however, their approach was always that “Christ is the Word - the recording service, like John the Baptist, is content to be a voice”.

In 1960, the second edition of a little booklet titled “To Minister and to Record” contained these words:

“This is an expensive part of our ministry, but we are quite convinced that it is an essential and helpful part. Maybe, Mr. Welch and Mr. Allen cannot get to your place once a year, but we can lend you a tape and you can have the benefit of their study and labour, say, once a fortnight and be sure of a different address for the next eight to ten years, even if we stop immediately!”

Of course, they didn’t stop, and, as the years passed many more recordings were made, and other rightly dividing Bible expositors had their messages put onto tape at the Chapel, and elsewhere within the UK.

With the advent of new technology developed in the mid 1990’s, John Porter (UK), and Jeff and Fred Doak (USA), transferred many of these expositions into a digital format that will be easier to preserve, and be accessible to many more people around the globe. In the process, the sound quality has been improved on many of those recordings which had previously become close to inaudible. In some instances, these recordings are clearer than the original recordings made on reel-to-reels and cassette tapes.

Also now available in digital form are a number of recordings made over several years in the USA, most by Oscar Baker and Arthur Lambourne, but including other speakers as well. These, too, are listed within.

Finally, take a moment and spare a thought, and offer up a prayer of thanks, for the many people who have worked tirelessly to bring us these recordings as we have them today. Whilst we do not seek to glorify these people, it is fitting that their contribution be acknowledged:

- The speakers, who put the time, effort and dedication into their preparation and delivery of these wonderful Bible studies;
- Those who formed the original Tape Recording Service, who acted faithfully upon the desire to “make all see” (Eph 3:9), and promote quality Bible teaching on a range of subjects;

- Those within the Berean Forward Movement, Truth For Today, and the Bereans of Phoenix who have ensured that the good deposit entrusted to them has been widely dispensed via this medium, with their backing and support;
- Those who have, in years past, set up the microphones, sat beside the reel-to-reel tape machines for hours, and then carefully edited and labelled the recordings, printing up any accompanying charts – all of which was part of preparing a recorded message for distribution;
- Those who have packaged and distributed the recordings over the years, via post or some other medium, and those who continue to do so;
- Those who have produced earlier editions of the Berean Forward Movement tape catalogue categorised by speaker, which have been of immense help in preparing this listing;
- Those who spent a vast amount of time digitising the old tape recordings and improving the sound quality;
- Those who collated these recordings into a format by which we can merely click on a button and begin to hear God’s Word rightly divided through the speakers of our CD player, computer, or some other device;
- Those, who contributed to this process in any other way not mentioned above.

Many have been blessed by the words of these recorded messages over many years, and we pray that many more will be also in the days to come. To God be the glory.

How this catalogue is arranged

This catalogue of recorded messages is an attempt to categorise, in some fashion, the huge range of topics found amongst the 2200 recorded messages from the Berean Forward Movement (UK), Truth For Today (USA), and the Berean Bible Fellowship of Phoenix Arizona (USA).

The categories are:

- Christian Fundamentals
- The Bible in General (inspiration, general interpretation, etc)
- Bible Books, Passages & People (commentaries, etc)
- The Godhead
- The Christian Walk
- Dispensational Messages
- Life, Death, Soul, Resurrection, etc
- Miscellaneous
- Shorter Messages (a listing of talks 10-20 mins in length)

This is just one of the ways these talks may be sorted, and many of the messages would suit two or more such categories.

Notes about the headings at the top of each list

Title

This is usually the title allocated to the talk when first given, however, some recordings appear not to have ever been given a specific title. For ease of reference, such untitled recordings have been issued with a title in this listing, which, we hope, accurately reflects the content of the message.

Speaker

The speaker listed is the person giving the Bible study message. Other voices, announcers, etc who may be heard during the recording are not identified in this list.

Disk (No.)

Some collections of these 2200 recordings have been issued on as few as three disks; some have been issued on twenty disks, or a portion of this. The column headed “Disk (No.)” is based on the set of twenty. For instance, Charles Welch’s message on The Canon of Scripture – W303 – is listed as Welch (3), meaning that the file will be found on the third of five disks featuring Mr Welch as the speaker. The recordings listed as being on the *F/A Days* disks were, for the most part but not always, recorded as part of the BFM’s Foundation Day or Anniversary Day meetings.

File Name

Most of these messages were issued a catalogue number when first recorded. In a catalogue number like W303, the letter stands for a particular speaker, and the number is that which has been allocated for that talk. So, W303 means that it is talk number 303 by Charles Welch. This catalogue number usually appears somewhere in the newly digitized file name. A list of what each letter stands for is given below. Generally the numbers indicate the order in which the talks were given, though this is not always the case. Many messages on the Foundation and Anniversary Day disks have longer file names, often indicating the date of the recording, and most have a “B” in the original catalogue system number. Also on the *F/A Days* disks are some messages given which did not fit neatly onto the other disks featuring particular speakers.

File names with the letter prefix...

- A – messages by Stuart Allen
- B – various speakers, often BFM Foundation Day or Anniversary Day meetings
- C - messages by Audrey Harrop for children
- D - messages by Norman Dredge
- E - messages by Brian Sherring
- H - messages by Edward L. Helsdon
- L - messages by Arthur C. Lambourne
- M - messages by Bill Imberg
- OB - messages mostly by Oscar Baker
- W - messages by Charles Welch

(begins at...)

Some of the recordings contain two or more messages on the one file (many of Oscar Baker's talks, for example). Some messages have been recorded as part of a longer meeting that includes singing and announcements (many of the BFM Foundation Day or Anniversary Day meetings, for example). To begin listening to the desired Bible message skip forward, while the file is playing, to the time listed in brackets in the extreme right hand column. For example, the number (34:22) indicates that the message listed begins at the 34 minute, 22 second point of the recording. These are only listed if the message does not commence at the beginning of the recording (0:00).
